The promoters have rich experiences in Metal sector and are already manufacturing world class uPVC Fenestration Products.

The group has presence in manufacturing of Steel, Channels & Bars etc., with an annual output of 3Lakh metric tons. The core Team has a combined experience of more than 100+ years.

INFISSI aspires and endures to bridge the gap between the clients' dynamic needs with its world class solutions, genuine & reliable scientific analysis and all necessary certifications from reputed organizations - along with being competitive in prices and fulfilling commitments.

SOLAR MOUNTING STRUCTURES FOR

MATERIALS USED

- Hot Rolled Coils (HRC, IS-2062, up to 350Mpa)
- Galvalume (ASTM A792M / IS-15961, AZ150-200gsm, up to 550Mpa)
- SS-304 grade &/or Electro/Galvanized Fasteners, Washers etc.
- Galvanized Plain Sheets (GP)

SECTION TYPES

- L, C, U, Z, Box, Hat, Strut Channels (Thickness 5.00 to 0.70mm)
- Exclusive solutions, as required by the client drawings.

QUALITY & CERTIFICATIONS

- > Materials' test reports (MTR) from the mother Mills & OEMs
- > TUV SuD test reports for all fasteners & accessories
- > All Pull out test reports from TUV SuD only.
- > Proper scientific STAAD Analysis Reports.

PRODUCTION CAPACITY

> 2500 MT/month (expanding soon!)
